Re: Application for Modular Detention Structures 10/805,859

Dear Mr. Batson and Mr. Bartosik

This patent publication was created for me by Paul Gallagher, PC of Evanston Illinois. Paul passed away in the spring of 2005. I have not retained another attorney to date. At this point can I represent myself and my claims?

From the Office Action Summary sent to me 6/2007 I need some clarification of the class 52, subclass 106. And the class 52, subclass 745.01. The MPEP 806.05(h) is also needed.

Are any of the above reference points available on the US Patent website?

Thank you for your assistance

Sincerely,

Timothy J. Tobin
